## DRAGON GUARD

### COMPANY PROFILE

DRAGON GUARD is a high-tech enterprise collecting research, development and sales. With own factory, more than 18 years' experience, that meets ISO9001 demands. In addition, the factory has obtained many professional certificates, such as CE, MSDS, SGS etc.

Dragon Guard products are mainly divided into four categories : EAS, DISPALY SECURITY, RFID and ESL, which can be applied to supermarket, library, garment, electronic store, inventory management, and smart retail...etc.

Besides OEM, Dragon Guard also has its own R&D department to design and manufacture new products. Dragon Guard has obtained a variety of patents and kept investing in R&D.

At Dragon Guard, commitment to quality is one of our core values. In order to guarantee that we established a strict QC team to make full inspection system before delivery.

You have the freedom to choose high-quality products and the most optimal solution for your clients or yourselves from Dragon Guard. Your satisfaction and mutually sustainable positive development will be our ultimate goal.
